

This email is requesting that the banks listed withdraw their FCC petition. I do business with several of the banks listed (note I do business with them without their harassing phone calls) Should this petition go through, I do guarantee that all banks involved will lose this customers business. I signed on to the no call list, because I don't want to be bothered by phone calls day and night as I was before. The callers don't know how to take no for an answer and personally I don't want to deal with them. Leave the no call list as is.
